NON PARTISANS KEEP ACTIVE

(By Associated Press)

FARGO, N. D., June 29.—The Non-Partisan League administration in North Dakota is seeking a continuation of power in the North Dakota primaries today. Governor Lynn J. Frazier, the first league governor is running in the Republican primaries for nomination for a third successive term.

He is faced, however, by opposition in the Republican primaries from Non-Partisan League candidates, William Langer, State Attorney General, who was twice elected on the League ticket with Governor Frazier, is running for governor in the Republican primaries against his former chief and two other state officials elected on the last League ticket are seeking renomination on the regular Republican against men who this year bear the League endorsement in their stead. They are Thomas Hall, secretary of state and Carl Kositzky, state auditor. The Non-Partisan League also has candidates for these offices in J. F. Cahill and D. C. Poindexter.

Republicans and Democrats opposed to the League have agreed with the Independent Voters' Association to unite in a campaign against the Non-Partisan League and have appointed a joint committee to control a joint campaign fund for use in advancing the candidacies of the Republican and Democratic opponents of the League.

United States Senator A. J. Grosvonts is asking renomination in the Republican primaries while the Non-Partisan League candidate for Republican is Dr. E. E. Ladd, president of the North Dakota Agricultural College.

J. P. T. O'Connor, of Grand Forks, is candidate for the Democratic nomination for governor.

TRAINING FOR THE OLYMPIC

(By Associated Press)

NEW YORK, June 29.—While all the members of the American Olympic committee are working individually and collectively to have the United States represented at Antwerp, Belgium, by the very best of teams procurable on this side of the Atlantic many other countries throughout the world are endeavoring just as earnestly to secure worthy representatives to take part in the Olympic contests.

King Alexander of Greece, the first place of the Olympic games, has personally accepted the presidency of the Hellenic committee and is taking upon himself much of the responsibility of turning out a Greek team that will do honor to ancient Greece at that country. King Alexander also is an ardent sportsman and has arranged a preliminary credit of 200,000 drachmas which is fully 50 per cent more than that allowed by the Greek government to pay the expenses of the Hellenic participation in the Olympic competitions.

An example of an athlete who is in shape for the Olympic games is a young man, who is expected to be a strong competitor in the 100 yard dash. He recently covered 120 yards in a dash in 11.1 seconds, 150 yards in 14.5 seconds, 200 yards in 19.5 seconds, 300 yards in 27.5 seconds, 400 yards in 37.5 seconds, 500 yards in 47.5 seconds, 600 yards in 57.5 seconds, 700 yards in 67.5 seconds, 800 yards in 77.5 seconds, 900 yards in 87.5 seconds, 1000 yards in 97.5 seconds, 1100 yards in 107.5 seconds, 1200 yards in 117.5 seconds, 1300 yards in 127.5 seconds, 1400 yards in 137.5 seconds, 1500 yards in 147.5 seconds, 1600 yards in 157.5 seconds, 1700 yards in 167.5 seconds, 1800 yards in 177.5 seconds, 1900 yards in 187.5 seconds, 2000 yards in 197.5 seconds.

Many good results have been obtained at the preliminary trials for Swedish sportsmen intending to participate at the forthcoming games. What is said to be a new world's record has been created by Tor Henning, swimming 200 meters in 2 minutes 58.4 seconds.

GERMANY BUYS CORN CROP OF ARGENTINA

(Correspondence Associated Press)

BUENOS, June 1.—Recent sharp advances in the price of Argentine corn are attributed to the fact that news leaked out that the League of Agriculturalists of Germany had contracted with a Dutch firm for the purchase in Argentina of 1,000,000 tons of the cereal. The contract is said to be guaranteed by the German government and is to be paid for month by month as the corn arrives out of the province of the German government monopoly of a potato and sugar estate. The corn is to be used chiefly for raising pigs in order to remedy the dearth of fatty foodstuffs in Germany.

Since the beginning of the year the price of corn has risen to the equivalent of \$1.12 per bushel. A million tons at this price would amount to about \$44,000,000. Hardly more than a year ago corn was being burned in Argentina for fuel.

Another record performance was the swimming of 500 meters in seven minutes 11.7 seconds by Aine Borg, who established a new Swedish record.

CHINA EVENS UP WITH JAPAN

(Correspondence Associated Press)

TSINAN, Shantung Province, China, May 30.—While the Shantung problem remains unsolved and the Japanese occupation of areas Germany formerly controlled continues, a means to oppose the Japanese has been worked out along economic lines by Chu Ying-kang, civil governor of the province.

Chu Ying-kang, who has come to be regarded by foreigners of the Far East as one of China's greatest administrative figures, has launched the daring project of building within Shantung a great system of highways to be used by an automobile truck service in connecting all important centers. As a corollary, he plans to deepen and improve waterways so that they, roads and streams, will afford to the province a transportation system that will place them on the same footing with the Japanese-controlled continental channels of communication.

Under the direction of A. and K. and a graduate of Peking University who has been made director of the newly created Bureau of Roads and Waterways in Shantung, active and rapid work in construction with the project has been started out of Tsinan and present plans contemplate building of 4,000 miles of highways and the deepening of the Hsiao Ching River. The purpose is to weave all important centers of the province into a unified transportation system.

Under existing conditions many of these cities, for example the port of Chefoo, are hampered economically by the lack of adequate transportation facilities. The Chinese hope the plan will break the back bone of Japan's economic domination in Shantung.

Confidence

More than 13,000 women and 22,000 men make up the list of the owners of Swift & Company.

Every state in the Union is represented.

Of this great enrollment more than 10,000 are employees of Swift & Company who own shares in the business.

An additional 13,000 employees are buying shares on deferred payments.

These men and women have confidence in the company's policies, its integrity and purposes. That is why they invest their savings in shares.

Swift & Company has been paying dividends regularly for 34 years. The present rate is 8 per cent.

Swift & Company shares are bought and sold on the Chicago and Boston stock exchanges.

The company itself has no shares for sale.

The shares represent actual, tangible values. There is no water.

Anybody—livestock man, retailer, or consumer—may buy them and thus become a part owner of Swift & Company.

No one man, no one family, owns as much as half of the stock.

This advertisement is for the purpose of acquainting you with the fact that Swift & Company is not a "close corporation," and that any one may participate in the profits—and share the risks and responsibilities—by becoming a shareholder.

Swift & Company, U. S. A.
